

HSTR85C HEATED TOWEL RAIL

INSTALLATION AND ASSEMBLY INSTRUCTIONS

IMPORTANT INSTRUCTIONS

Retain these instructions for future reference.

Read them carefully and also note the information given on the heater.

This Towel Rail is designed specifically for domestic purposes and Heatstore cannot be held responsible if used in any other type of installation.

THE TOWEL RAIL MUST BE WIRED TO COMPLY WITH THE CURRENT EDITION OF THE I.E.E REGULATIONS BY A QUALIFIED ELECTRICAL ENGINEER.

THE REGULATIONS CONTAIN IMPORTANT REQUIREMENTS REGARDING SAFETY OF ELECTRICAL APPLIANCES IN BATHROOMS.

The Towel Rail cable should be connected to the electrical supply through a means for disconnection in all poles in accordance with the wiring rules.

The cable connected to the appliance must be fixed wiring.

If used in a bathroom it should be connected to an unswitched fused spur outlet.

In other rooms a switched unit should be used.

The Towel Rail is designed as a fixed electrical appliance for fixed wiring and must be earthed.

IMPORTANT! A 13-AMP PLUG SHOULD NOT BE FITTED TO THE MAINS LEAD.

The cable entry can be either on the left or right hand side, but must be horizontal and at the bottom.

A 3-amp fuse must be used. As the colours in the wires in the mains supply cord may not correspond with the coloured markings identifying the connection terminals, make the electrical connections as:-

- The GREEN/YELLOW earth wire to the terminal marked \oplus or "E".
- The BROWN (L) live wire to the terminal marked "L".
- The BLUE (N) neutral wire to the terminal marked "N".

MOUNTING PROCEDURE

Slightly loosen off the screw inside each Leg Bracket, and with the fixing holes away from you, swivel the bracket around to the rear of the frame.

Should you require the cable to be at the other side, loosen the Screw and Strap for each Leg Bracket, rotate the brackets through 180°, refit and swivel around to the rear of the frame.

Place the Towel Rail on a flat surface, check that all the Leg Brackets are sitting parallel and then tighten the screws. Using your Towel Rail as a template, position it on the wall and mark off the fixing holes.

Drill and plug the wall suitable for No.8 x 1 ¼" screws.

Use plated screws to avoid corrosion to secure the unit to the wall.

SAFETY

This equipment has been designed and manufactured to the highest international standards, but like all electrical appliances that are operated by mains voltage, care must be taken if you are to obtain the best results and safety is to be assured.

- DO NOT use the appliance if damaged.
- If the supply cord is damaged, it MUST BE replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- DO NOT use the appliance to carry articles that have been cleaned with dry cleaning fluids.
- DO NOT use the appliance to carry articles that have been in contact with oil or petroleum based products.
- DO NOT use the appliance unless it has been fitted to the wall as per these instructions.

WARNING

To avoid a hazard, this Towel Rail MUST NOT be used to carry towels or other articles that have been in contact with oil, petroleum based products or dry cleaning fluids.

CLEANING

To clean the Towel Rail, polish with a clean dry cloth when the Towel Rail is switched off.

If a more thorough clean is required, the use of non-abrasive wax polish (similar to those used to polish car paintwork) will help to maintain the chromium finish).

Under no circumstances should any kind of abrasive or spray cleaner be used to clean the Towel Rail. These may contain chemicals, which can affect the surface finish and as such may invalidate your warranty.

IF YOUR TOWEL RAIL DOES NOT WORK

Check that the fuse has not blown at the flex outlet, or at the distribution board.

DO NOT attempt to repair the Towel Rail.

Should none of the above remedies work, then consult an accredited service agent.

If the appliance is still under guarantee, return it to your supplier or contact our after sales service.

HEATSTORE AFTER SALES SERVICE

We offer a technical advisory service on the telephone to contractors and other customers with problems in the field. **RING: "0117 923 5375" / E-MAIL: "enquiries.heatstore@adivision.co.uk"**

GUARANTEE

This Towel Rail is guaranteed against defects for 1 year from the date of purchase.

Heatstore reserves the right to repair or replace the Towel Rail.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

WARNING! *In order to avoid a hazard for very young children, this appliance should be installed so that the lowest heated towel rail is at least 600mm above the floor.*
